DuplexPro

Official User Manual & Workflow Guide

Platform Portal

duplexpro.indocreonix.com

Document Purpose

End-to-End User Journey & Functional Specification

DuplexPro

24-06-2026

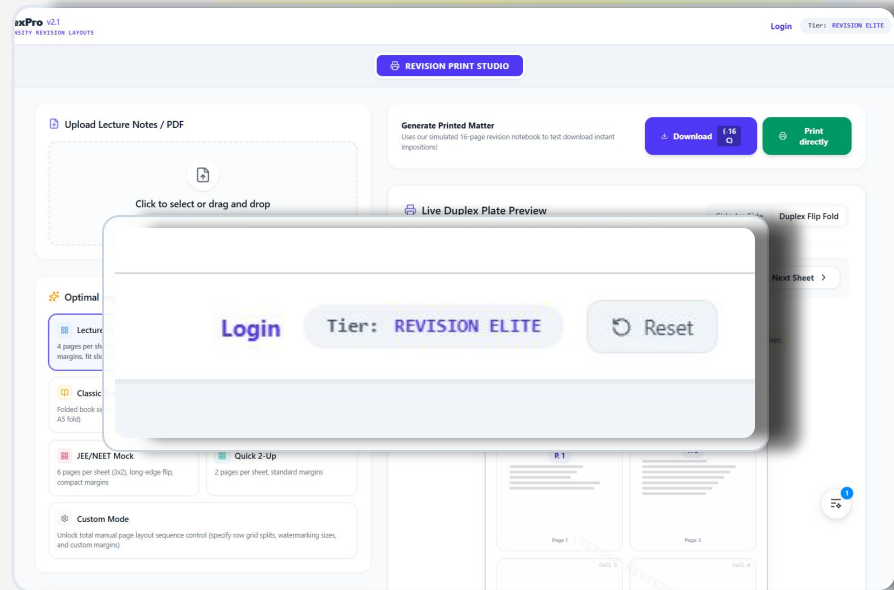

Initial Platform Access

01 / User Action

Navigate to the landing page and select **Login** or **Sign Up** located in the top-right header navigation.

02 / System Protection

All core imposition routes are strictly protected behind this gateway; unauthenticated requests redirect to the landing route.

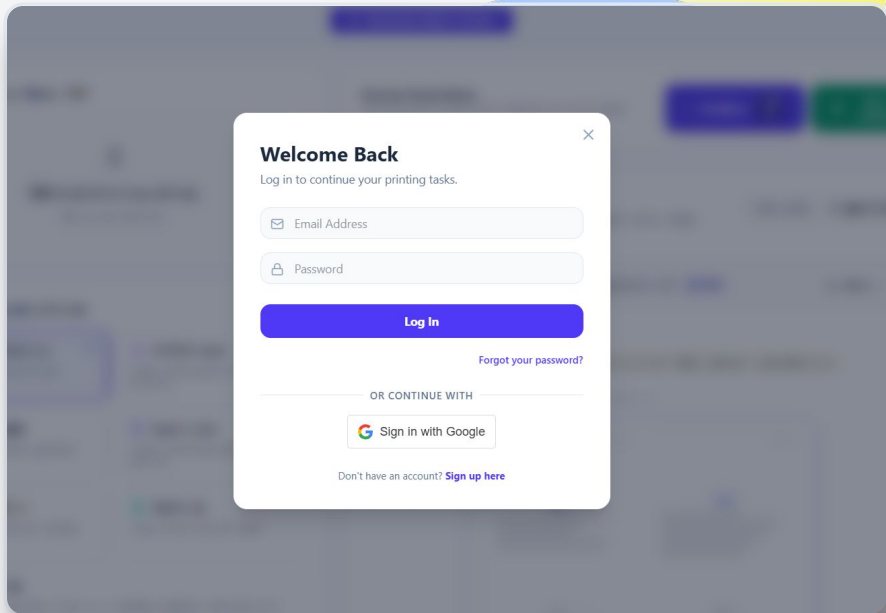

Session Authentication

01 / User Action

Input traditional email/password credentials or utilize Single Sign-On (SSO) via Google or Microsoft.

02 / UI Indicator

A centered modal overlay takes focus over the landing page, allowing seamless toggling between Create Account and Sign In states.

The User Dashboard

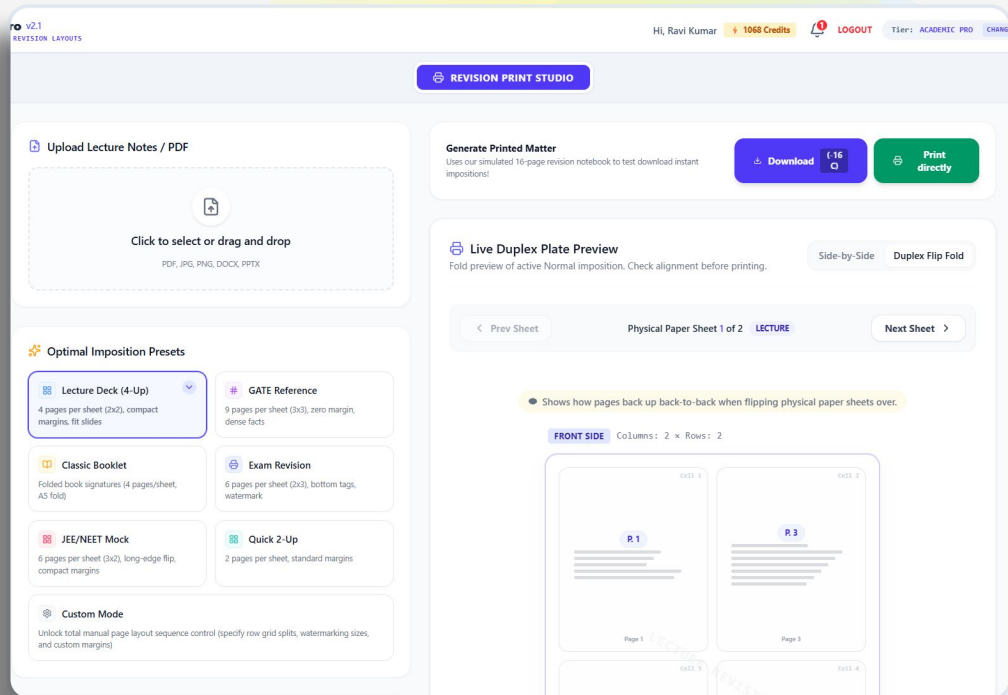

01 / View Navigation

Upon successful handshake, the user routes directly to the primary Command Center.

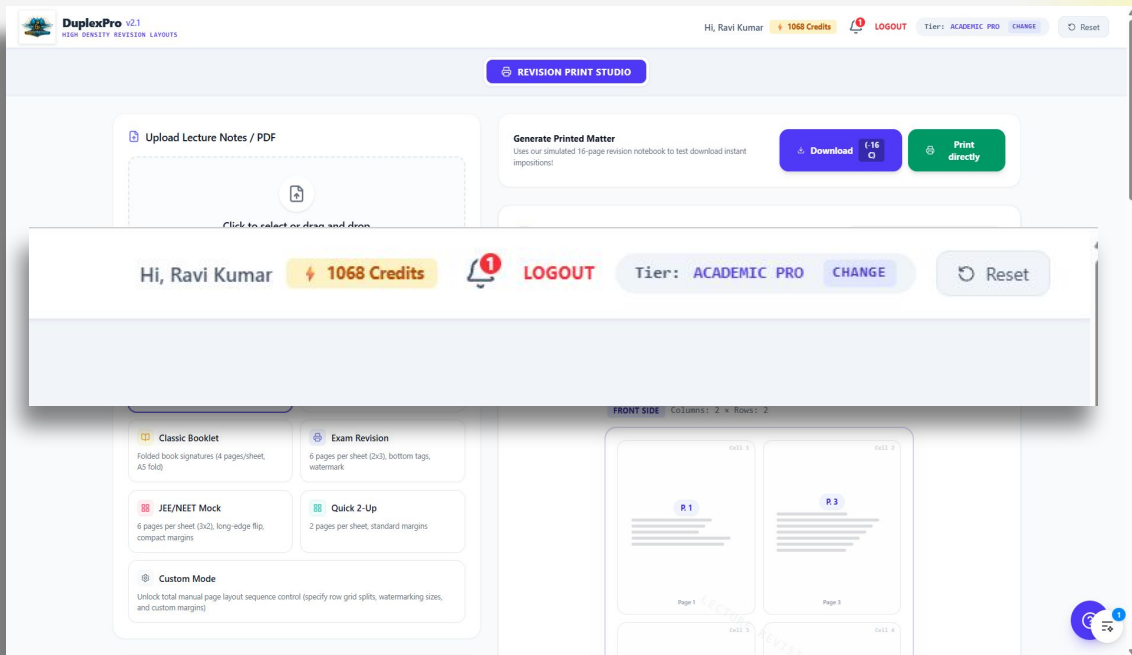

02 / Displayed Data

Active plan status, historical document ledger, cumulative sheet-savings metrics, and quick-launch drop zones.

DuplexPro

The Credit Economy

DuplexPro

System Logic: Processing jobs consume Credits (⚡) to protect server rendering pipelines from automated abuse.

Tier Allocation: Free Student tiers receive scheduled, automated credit refills; Pro tiers operate on expanded monthly pools.

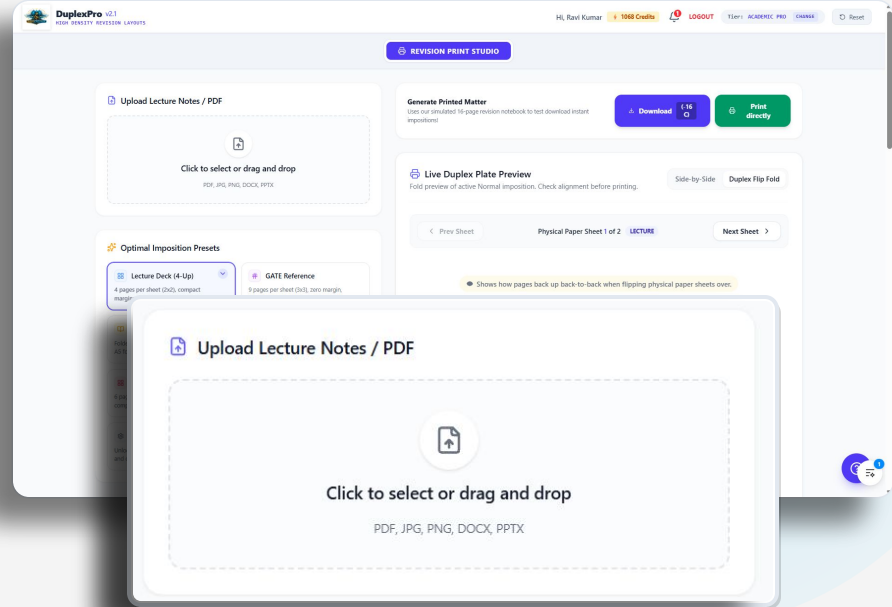

The Upload Zone

01 / Location

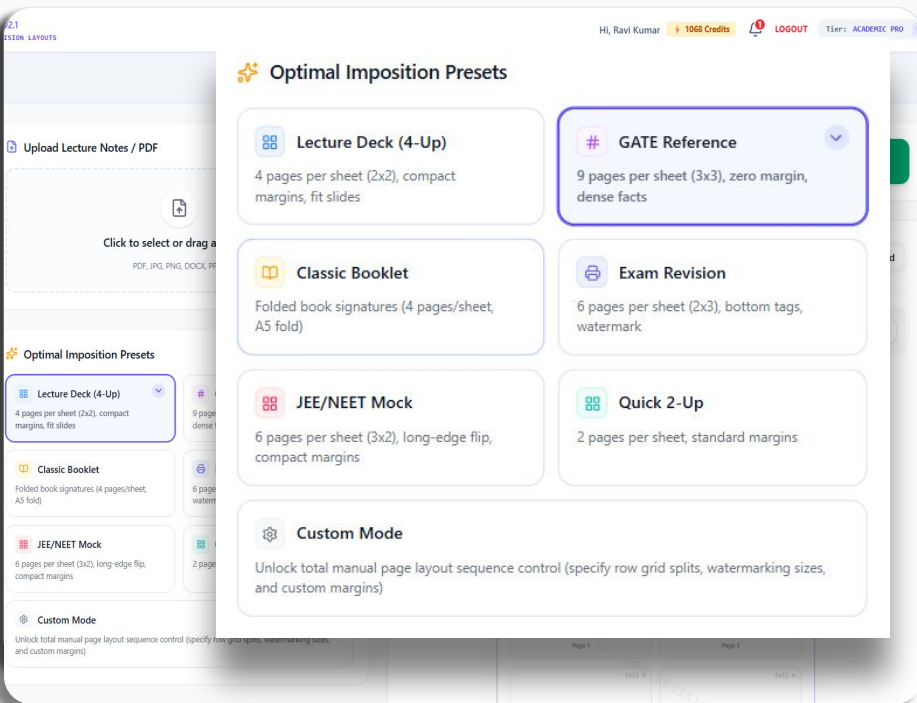

The primary drag-and-drop target resides in the left-hand Control Panel of the workspace view.

02 / Input Constraints

The engine strictly parses standard .pdf MIME types to guarantee coordinate accuracy.

Layout Presets

01 / LECTURE

Lecture Mode

4-Up (2x2) layouts. Optimal balance of paper saving and slide legibility.

02 / EXAM PREP

GATE / JEE Mode

6-Up to 9-Up high density. Prioritizes raw paper conservation.

03 / BOOKLET

Booklet Mode

2-Up Saddle. Sets up standard center-fold, stapled document ordering.

04 / FLEXIBLE

Custom Mode

Unlock total manual page layout sequence and grid control.

Manual Grid Override

Action: Use row/column stepper inputs to force custom geometries (e.g., 1x3 or 2x4).

Use Case: Designed for non-standard source documents, such as ultra-wide architectural drafts or mobile exports.

Margins & Duplex Geometry

Margin Toggle: Switch between Standard (safe bleed) and Compact (pushes content to the absolute physical edge of the paper).

Duplex Binding Edge: Select Long-Edge Flip for standard books, or Short-Edge Flip for legal/clipboard top-binding.

DuplexPro

Live Duplex Verification

The Real-Time Canvas

UI Behavior: Any parameter changed Layout Configuration triggers a sub-second re-render of the physical preview canvas on the right.

Recto / Verso Proofing

Action: Toggle the preview header between Front (Recto) and Back (Verso).

Visual Check: The canvas simulates the physical sheet of paper flipped over. This allows the user to visually verify that Page 2 sits directly behind Page 1 in the correct orientation prior to ink hitting paper.

Environmental & Financial Telemetry

Print Cost & Savings Estimator

Durable cost matrix backed by active subscription parameters and vouchers.

PLAN: ACADEMIC PRO (0.85X MULTIPLIER)

MANUFACTURING CARBON OFFSET

The Sheet Reduction Math

Display: Clearly juxtaposes [Source Pages: 16] against [Physical Sheets Required: 1] to emphasize structural efficiency.

Eco & Monetary Impact

Environmental Telemetry: Translates saved paper into literal percentages of standard pulpwood conserved.

Financial Telemetry: Multiplies sheets saved against regional average retail print costs (e.g., ₹3.00 / page) to display a hard currency savings figure.

Choose Your Plan

Upgrade to unlock more pages, larger files, and premium features.

Free Student Free

- ✓ 20 pages per file limit
- ✓ 15 MB max file size
- ✓ 40 processing credits / week

Select Plan

Educator Pro ₹49 /month

- ✓ 200 pages per file limit
- ✓ 45 MB max file size
- ✓ 300 processing credits / week

Select Plan

Academic Pro ₹99 /month

- ✓ 500 pages per file limit
- ✓ 100 MB max file size
- ✓ 1000 processing credits / week
- ✓ Remove Watermarks

Active Plan

Revision Elite ₹199 /month

- ✓ 2000 pages per file limit
- ✓ 250 MB max file size
- ✓ 3000 processing credits / week
- ✓ Remove Watermarks

Select Plan

Voucher & Boost Redemption

Action: Input promotional codes into the designated text field and click Apply.

Result: Instantly overrides job credit costs to 0 ⚡ or deposits supplemental credits into the user's permanent wallet.

Tier Subscription Management

Action: Select Change Plan inside the dashboard header to invoke the tier comparison matrix.

Upgrade Triggers: Upgrading lifts maximum PDF source page-ceilings, removes the "DuplexPro" footer watermark, and unlocks batch processing.

DuplexPro

Engine Output & Delivery

Generate Printed Matter

Uses our simulated 16-page revision notebook to test download instant impositions!

 **Download**

(-16
C)

 **Print
directly**

Option A: Local Client Export

Action: Click the primary Download PDF button.

System Logic: Deducts the allocated ⚡ credit cost, compiles the rasterized document on the server, and forces a browser download named DuplexPro_[Original Name]_Optimized.pdf.

Best For: Users taking the file to an external commercial print kiosk or university library printer.

Option B: Direct Printer Handoff

Action: Click the secondary Print Directly button.

System Logic: Bypasses the local hard drive save entirely; compiles the file in memory and instantly invokes the operating system's native Print System Dialog (Ctrl+P / Cmd+P wrapper).

Best For: Users sitting on the same local network as their target home or office printer.
